

Industry Leaders in Pure Alcohol Supply

August 2023

OUR COMPANY

TECHNOLOGY

Our GNS (Grain Neutral Spirits) distillation facility was designed and built to be one of the most advanced in the world, which produces alcohols that are organoleptically neutral and pure with no smell or taste.

EXPERIENCE

Three decades of distillation experience with background in process plant design, plant construction, quality control, risk management, transportation, and sales.

LOCATION

Our corn processing, fermentation, and distillation is done at our plant in Lake Odessa, Michigan. Equipped to load and ship quantities ranging from tote to tanker (including rail).

OUR LEADERSHIP TEAM

Mitch Miller

Mitch has been in the alcohol production business since 1994. His career involves extensive experience in fuel, industrial, food, and beverage alcohol production and marketing. Miller currently serves as the Vice-Chairman of the largest biofuels advocacy group in America, Growth Energy. He is also a founding member of NUVU Fuels, One Ethanol, and Enited, LLC. These companies include biofuels convenience stores, alcohol based racing fuel, and industrial and beverage alcohols respectively.

Mick Miller

Mick is the Vice-Chairman of Enited, LLC and also serves as the Vice-Chair of Great Lakes Land Holdings out of Michigan. Mick has spent the last 23 years in biofuels, with focus on ethanol, serving in various capacities including President, CEO, and board of governor positions for several major ethanol production facilities. Mick's education is in Process Plant Technology and Business Management.

Carson Berger

Carson has over a decade of experience in the alcohol industry, starting with various roles in risk management and most recently as the General Manager of a 30+ million gallon per year producer in Minnesota. He spent 5 years on the Ethanol Advisory Team for the U.S. Grains Council as well as board of advisors for Harvestone Group. Carson received his undergraduate degree from North Dakota State University and his MBA from the University of North Dakota.

Edward Thomas

Edward is the plant manager of Enited, LLC and has more than 23 years experience operating and managing ethanol plants ranging from start-up to over 50 million gallon per year production. He served as plant manager of Carbon Green Bioenergy, a large scale ethanol producer in Michigan, for the last 14 years. At Enited, Edward is in charge of operations, production, and quality control of all Grain Neutral Sprints alcohol production.

OUR PRODUCT

- **Kosher 192 Proof Grain Neutral Spirits**
- **Organoleptically neutral spirits with no taste or smell**
- **Exceeds stringent food, beverage, and pharmaceutical grade specifications**
- **Registered with the TTB, FDA, and Michigan Liquor Control Agency**
- **Ability to load and ship rail tankers, truck tankers, and totes globally**
- **Up to 10 million gallon per year contracts available for sale as of Aug 1, 2023**
- **Applications include food, beverage, semiconductor, pharmaceutical, laboratory, industrial, and personal care**
